

Solar Heat for Industrial Process towards Food and Agro Industries commitment in Renewables

## SHIP2FAIR webinar series ‘Decarbonising agro-food process industries with solar heat’

### Webinars’ agenda

SHIP2FAIR’s last is the perfect occasion to meet our technology providers: TVP solar, Industrial Solar and Solid. Choosing the right technology for your business is not always easy. With this webinar you will learn about the current options on solar heat technologies and how to integrate them in industrial plants through the experience of four SHIP2FAIR demonstrations sites.
